Maryland Mathematics Performance Task: Unstructured Task

Inequalities represent a set of solutions that match a set of constraints. Inequalities are used in everyday life in situations that do not require exact amounts, such as needing to use less than or not more than a certain amount of something.

Solved: Measured Progress. Maryland Mathematics Performance ...

Mathematics performance tasks require students to integrate skills across multiple domains, clusters, and state standards to demonstrate their ability to use their math knowledge to solve real-world problems. They elicit evidence of students' ability to "bring it all together" to develop a solution plan to the central challenge of the task.
