I just got some Venom cam gears for my 2001 prelude and I was wondering if anyone had any tips on their install...ive heard its kinda hard... One more question, I have is, my car has 10,000 miles on it and last weekend vtec started kicking in lower on its own. It used to kick in at 5500 rpm, and now it kicks in at 52.

Have you checked to make sure that INTAKE 0 degree and EXHAUST 0 degree markings on those cam gears were indeed set at TDC? On a tuning session on the street or at the strip, I suggest that you do the cam gear tuning by going with a friend in the passenger seat with a stopwatch, if you don't have a datalogger that records speed and elapsed time.
