### Content Design

Content design encompasses much more than wording and layout. The design of content, including printed media, has always involved layout and wording, and the interaction between the two. Comprehensive content design today goes further by considering behavior: the behavior of the content, and the behavior of users interacting with the content. It designs content as a dynamic resource.

Content design is answering a user need in the best way for the user to consume it. In my book, I said: “Content design is a way of thinking. “It’s about using data and evidence to give the audience what they need, at the time they need it and in a way they expect.” Let’s pull that apart: Data and evidence. What the audience needs.

### Content Design London: What is content design?

Content design isn’t just a technique to help you produce better content — it’s a new way of thinking about content. Content design is part writing, part UX and part accessibility. It helps you produce content based on real users needs. In this regard, content doesn’t have to be a piece of text — it can be anything.
