How Latin America Fell Behind

In 1800, the per capita income of the United States was twice that of Mexico and roughly the same as Brazil's. By 1913, it was four times greater than Mexico's and seven times greater than Brazil's. This volume seeks to explain the nineteenth-century lag in Latin American economic development. The essays break with longstanding dependency traditions in Latin American historiography that ...

How Latin America Fell Behind: Essays on the Economic ...

Rather than How Latin America Fell Behind, the book's subtitle more accurately indicates its purpose: to compare the two largest economies of Latin America-Mexico and Brazil-which, Haber argues, simply do not fit the procrustean bed of dependence. The essays fall into three categories. The first deals with specific countries. Four

widespread belief, in terms of per capita income, Latin America fell behind during the late twentieth century. This finding is not confirmed, however, in terms of human development for which preliminary results suggest a drop in inter-country inequality over the long run. Yet, a large gap between OECD and Latin America still remained in 1990.
