It shows the solutions for solving hard-starting and surging symptoms on Briggs Intek V-Twin motors, namely, valve lash adjustment, some subtle reaming-out of Nikki low-side carburetor jet journals, and a governor adjustment.

Briggs Intek V-Twin Hard-Starting & Surging Solutions ...

Check the fuel in your tank – An empty fuel tank will obviously prevent your engine from starting up, but you should also ensure that the fuel is clean. If not fresh and in good condition, fuel can get dirty and lead to clogs and engine damage – a common side effect being the inability to start up correctly.

Briggs and Stratton Intek 20 HP engine troubleshooting

Replacing the fuel and cleaning the carburetor and spark plugs can often fix the issue. If not, the problem may be the engine's valves and compression system, which may require professional repair. Briggs and Stratton engines can run roughly once started, stalling out during use. This may also be the result of stale fuel or a dirty engine. A thorough cleaning of the engine's parts along with the replacement of the fuel and oil often fixes the problem.

Although setting the valves tight is preferable to loose for performance issues. That said, not all OHV Briggs engines use the .004 and .006" specs, just most. I wrote this referring to Lawn Tractors specifically, which when having OHV Briggs engine, will have Intek engines 99% of the time and use the .004-.006" lashes.

How to Diagnose and Fix a Hard-to-Start Briggs & Stratton ...

I have an older Murray lawn mower with a 21hp Briggs and Stratton v-twin engine, model 463707, type 0168 E1, code 020122 50, with what I suspect is a carburetor problem. When I first acquired the mower it would run but loped quite bad. I smoothed it out by adjusting the choke to about 3/4 closed.
