tormented by both her past and her present.

Little Deadly Things - Kindle edition by Steinman, Harry ...

Little Deadly Things begins in the reading present and then moves back in time to examine the childhood of three main characters. The outer tale is a technothriller, high-tech sci-fi. The inner story is an exploration of how adults cope with the angry residue of a childhood time served under abusive or feckless parents.

It's clear that Harry didn't even throw his name into the Goblet and he's underage. There are plenty of rules and regulations in the wizarding world that don't make sense, but some random person being able to basically force a child into a magical contract for a potentially deadly competition seems a little sketchy.
