Modern Timber Frame Homes - Timber Home Living

The main problems we look for are the effect of modern materials. It's really that simple. Paint all over the frame will cause the timber to soften. Cement over the sill beams, and filling holes, will cause catastrophic rot. Silicon sealants will do the same thing - trapping moisture into the timber, and holding it there - causing rot.

Surveys of Timber Framed properties - heritage-house.org

Modern Timber Frame Homes Ireland | Timber Frame Constructions

What is timber frame construction? Not to be confused with traditional timber framed houses, modern timber frame construction is the cutting and preparing of the frame and joists off-site, before bringing them on-site to be assembled. In the 1980's timber frame construction of domestic houses became increasingly popular in the UK.

Do you live in a timber framed property with cavity wall ...

Surveying timber frame houses for defects. Can you tell whether you are buying a timber frame or brick house? Take a look at the photo. Many modern timber frame houses have brick outer skins that make it very difficult for the untrained eye to tell the difference. This skin is not load bearing, but is the protective jacket for the inner timber ...

Surveys for defects in timber frame homes

James and Claudia Gray's timber frame farmhouse is a fitting addition to a site steeped in military history (Image credit: Simon Maxwell). The frame is wrapped on the outside with a waterproof barrier, which is then wrapped by the external wall elements, which can be either built up out of the ground (brick or stone), or hung off the timber frame walls — as would happen with timber ...

WARNING ISSUED OVER TIMBER FRAME HOMES - Derry Daily

Timber framing and "post-and-beam" construction are traditional methods of building with heavy timbers, creating structures using squared-off and carefully fitted and joined timbers with joints secured by large wooden pegs. It is commonplace in wooden buildings through the 19th century. If the structural frame of load-bearing timber is left exposed on the exterior of the building it may be ...
