The NDC program NDC (New Distribution Capability) is a travel industry-supported program (NDC Program) launched by IATA for the development and market adoption of a new, XML-based data transmission standard (NDC Standard). The NDC Standard enhances the capability of communications between airlines and travel agents.

IATA - New Distribution Capability (NDC)

The NDC Standard enables the travel industry to transform the way air products are retailed to corporations, leisure and business travellers, by addressing the industry's current distribution limitations. IAG are at the forefront in developing the NDC standard, and we have opened our NDC to interested parties from across the travel industry.

Training Our Communities, Our States, Our Nation. NDC Training builds development finance capacity in professionals working at every level and for every sector of the economic, housing and community development profession: NDC created the first training program solely for economic, housing and community development practitioners four decades ago. Since then, we have trained more than 81,179 individuals in the art and science of economic and housing development finance.

NDC

The first set of numbers in the NDC identifies the labeler (manufacturer, repackager, or distributor). The second set of numbers is the product code, which identifies the specific strength, dosage form (i.e, capsule, tablet, liquid) and formulation of a drug for a specific company.
