Sustainable Ho Chi Minh City

With a population of eight million people, Ho Chi Minh City has a huge number of immigrants of all income levels. City living comes with a major challenge: It is surrounded by water. Located next to the Sai Gon River, it is built on a network of canals and small rivers, the majority of its land area is less than two meters above sea level.

Ho Chi Minh City and Hanoi, two of the largest cities in Vietnam, are set to become sustainable cities of the future. As part of the government target which aims to make Ho Chi Minh City the first smart city in Vietnam by 2020 and Hanoi by 2030, billion dollar mega projects are currently underway to build smart cities.

Ho Chi Minh City, Hanoi to Become Sustainable Cities

An astonishing feature of Vietnam's Hanoi and Ho Chi Minh City over the past decade is the rapid urbanisation. These two largest cities in Vietnam are expected to become sustainable cities in Vietnam in the very near future, with the support from the government with clear targets and goals. Substantial amount of dollars (US\$6 billion) has been injected into several mega projects to make Ho ...

ADB is helping Viet Nam improve accessibility of the Mass Rapid Transit 2 line from Ben Thanh to Tham Luong stations in Ho Chi Minh City. The project will include pedestrian subways and footbridges, bus stops and feeder links, park-and-ride facilities, and a real-time information system for bus and train arrivals. It will also support policies to promote the shift from private to public transit.

On April 19, the Consulate General of the United States in Ho Chi Minh City held a seminar discussing the gravity of ocean pollution in Asia. Experts at the seminar produced appalling statistics which state that nearly 18,000 metric tons (39,683,207 pounds) of plastic waste are generated in Vietnam every day. This finding indicates how desperately Vietnam needs to adopt major changes in ...
