Water Powered Mill: Image courtesy of the University of Vermont Landscape Change Program and the Vermont State Archives. The water wheel is not visible, and may no longer be present, on this old mill. However, its location along the water, and its small, gable-roof construction characterize the structure as an old water mill.

'Landscape with Water Mill' was created in 1648 by Claude Lorrain in Classicism style. Find more prominent pieces of genre painting at Wikiart.org - best visual art database.

### **Landscape with Water Mill, 1648 - Claude Lorrain - WikiArt.org**

A weathered but picturesque watermill sits in a landscape that includes several idealised peasants engaged in tasks such as fishing, collecting water and washing clothes. Although this landscape has an air of decorative artificiality, even theatricality, Boucher includes sufficient detail to suggest it may have some basis in his direct observation of an actual place, possibly on the river Seine west of Paris.

Geography, Landscape and Mills Introduction Watermills were a staple of some villages, most towns, and all cities from the ancient world onwards. Mills provided the power to grind grain into the principal processed food, flour, which fed society right into the modern period. And as populations grew, simple

Just a half day later we were back to thinking about this catalog and Water Mill Gardens in 2018. They had spent the previous day helping out with the Reilly and Floyd Cove gardens. It is with a special feeling of gratitude we thank the generosity of those members of the Church of Latter-Day Saints in near-by Deltona for their help and generosity of spirit.
