2010 Sea-Doo GTX 155 Reviews, Prices, and Specs

The GTX 155 was one of a number of boats to benefit from all that Sea-Doo techno-wizardry of the past year. That means for 2010 it gets an all-new hull (the same one that debuted on the high-end suspension models last year), a new top deck (very similar in style to the suspension models), and lots of iControl technology, like Intelligent Brake and Reverse as well as Intelligent Throttle Control.

2010 Sea-Doo GTX 155 Review - Personal Watercraft

The GTX 155 is powered by the base Sea-Doo engine, the 1.5-liter Rotax E-TEC in 155-hp trim, with no supercharger boost. The GTX 155 does not accelerate with the authority of the 260-hp GTX Limited iS, but I think the 155-hp engine offers plenty of power for family touring and towing, and it's happy to run on 87 octane fuel.
