The third edition of this market-leading textbook (previously called An Introduction to International Institutional Law) is written in a clear, three-part structure. It is centred on the dynamics of the relationships between international organisations and their organs, staff, and the outside world.

An Introduction to International Organizations Law by Jan ...

Summary: All international organizations exist in the conceptual and legal space between state sovereignty and legal obligation. They are created by the commitments made by sovereign states, and their purpose is to bind those states to their commitments. This chapter examines three forces in world politics: the commitments states make to international organizations, the choices states make regarding compliance and non-compliance with those commitments, and the powers of enforcement held by ...
