Climate Migration And Security Securitisation

Climate migration, as an image of people moving due to sea-level rise and increased drought, has been presented as one of the main security risks of global warming. The rationale is that climate change will cause mass movements of climate refugees, causing tensions and even violent conflict. Through the lens of climate change politics and securitisation theory, Ingrid Boas examines how and why ...

Securitizing 'climate refugees': the futurology of climate ...

This paper looks at recent studies that have addressed climate change as a security issue. Posing climate change as a problem for security has provided it with a major boost in attention. However, it raises the potential of 'securitization', i.e. that the issue is primarily addressed via traditional means of security policy. The paper analyses how selected studies frame the issue of ...
