When selecting plants for your coastal site, consider your location's USDA Hardiness Zone, too. Cold weather might impact tropical plantings in North and Central Florida (zones 7-9). Likewise, cold-hardy plants may not perform well in South Florida's scorching summers (Zones 10 and 11). Light and soil are important factors to consider, too.

Upwelling is an oceanographic phenomenon that involves wind-driven motion of dense, cooler, and usually nutrient-rich water from deep water towards the ocean surface, replacing the warmer, usually nutrient-depleted surface water. The nutrient-rich upwelled water stimulates the growth and reproduction of primary producers such as phytoplankton. Due to the biomass of phytoplankton and presence of ...
