Consensus And Global Environmental Governance

We have voluntarily reported on our environmental and social performance since 1997. Our sustainability reporting focuses on the challenges that most affect our business performance and matter most to our key stakeholders. Reporting in an honest and open way helps build trust, motivate staff, and improve our environmental and social performance.

The solutions to plastic pollution are complex, transboundary, and multilateral. With plastic sources so varied, ranging from textiles and tire dust to plastic bottles and packaging, the requisite global response must be holistic and dynamic, requiring coordinated action by diverse stakeholders at the national, regional, and international levels. Despite the growing recognition that long-term ...
