According to Michael Armstrong, "Job Design is the process of deciding on the contents of a job in terms of its duties and responsibilities, on the methods to be used in carrying out the job, in terms of techniques, systems and procedures, and on the relationships that should exist between the job holder and his superior subordinates and colleagues."

Job design - Process of job design - Approaches to Job ...
If this is a tech job, you'll notice that most of your colleagues are white dudes. This sucks. It limits the points of view in the office — which means your design solutions are weaker, that people who are not white dudes are less likely to want to work there, and you'll see a lot more fleece vests.

2011/03 Mike Monteiro | F*ck You, Pay Me, on Vimeo
Agree completely, Mike. Hiring good designers is very hard, because there are so many that just don't meet expectations. I would also say how one presents themselves as a total brand is really important — everything should have flavor, including the design of their resume, even if the content itself is not overly influential.

How To Properly Apply for a Design Position » Mike Industries
Job Description As the Interim Design Manager you will ultimately be responsible for managing a large residential scheme at stages 0-3. Subject to project requirements the role may cover all stages with key tasks including:
