natural areas fill us with wonder of the diversity of life, and often leave us with many more questions that we want answered. Inquiry into Life not only explores what it means to be human from a cellular, physiological, and evolutionary perspective, but also how we compare to the other species of life that occupy our planet. This honors

Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author(s) and do not necessarily reflect the views of the National Science Foundation.

Digital Atlas of Ancient Life | Exploring the Diversity ...

In studying the diversity of plant metabolism it is important to elucidate how each metabolite is synthesized, transported, and degraded, and how these processes are regulated. Tremendous progress has been achieved using reverse genetic approaches to elucidate the biosynthesis and control of Arabidopsis metabolite accumulation, especially concerning secondary metabolites in this species [25] .
