There seem to be some implied confusion between greater 'digital financial inclusion' and 'access to finance'. To address this, we first need to understand that if digital finance is accessible to all and without bias, digital finance would improve the welfare of individuals that have formal bank accounts who wish to carry out basic financial services on their accounts via personal ...

All powers of  $x$  must have the same dimension for the terms to be commensurable. But if  $x$  is not dimensionless, then the different powers of  $x$  will have different, incommensurable dimensions. However, power functions including root functions may have a dimensional argument and will return a result having dimension that is the same power applied to the argument dimension.

Saha eventually brought his third fifty of the season, his 11th overall in the league. He was joined by David Miller on the crease. Both started to rotate strike, with a responsibility to take the Titans over the line without any more fall of wickets. Eventually, the equation was down to 7 in the final two overs.
