Enlisted men seized this once-in-a-lifetime chance to fly, said retired Air Force Brig. Gen. Edward Wenglar, a former enlisted pilot. "I was born the tenth child of a sharecropper and, at that time, there was no one lower than a sharecropper," Wenglar said. "I went from driving a mule to flying the newest (aircraft). It was quite a step.

Classic examples of flying wings are the German World War 2-era Horten Go 229 and the modern-day Northrop Grumman B-2 'Spirit' stealth bomber.

Many in-service and upcoming UAV forms are also relying more and more on the flying wing arrangement. There are a total of [25] Flying Wing Aircraft entries in the Military Factory. Entries are listed ...

Flying Wing Aircraft - Military Factory

Columbine II is the first plane to bear the call sign Air Force One. This designation for the U.S. Air Force aircraft carrying the incumbent president was established after an incident in 1953, when Eastern Air Lines 8610, a commercial flight, crossed paths with Air Force 8610, which was carrying President Eisenhower. Initially used informally, the designation became official in 1962.
