The Dental CBCT: Why You Need More Than a Standard X-Ray ...

Submersion into cold water can induce cardiac arrhythmias (abnormal heart rates) in healthy people, sometimes causing strong swimmers to drown. The physiological effects caused by the diving reflex conflict with the body's cold shock response, which includes a gasp and uncontrollable hyperventilation leading to aspiration of water. While breath-holding triggers a slower heart rate, cold shock ...

Drowning - Wikipedia

By improving sleep, they hope to not only help you sleep better but also resolve a hidden public health crisis. That may sound dramatic, but sleep deprivation can literally take years off your life. It is directly linked to obesity, insulin resistance, diabetes, increased cancer risk, cardiovascular disease, premature birth, and ...
