If eyes are a mirror to your soul, then handwriting must be a window. It might sound funny, but our handwriting tells so much about us, that a skilled professional might see through you only by looking at your lettering. Cursive handwriting can tell about your personality, state of mind, traumatic events, hand-eye coordination and even bone structure that affects the way you hold the pen.

Frosted window decals and lettering are made from an adhesive material called etched glass that is roughly .002" thick. The decal comes with a clear backer that can be peeled away to reveal the adhesive. Frosted lettering will also come with a layer of transfer tape placed over the top of the decal, allowing for a simple, all-in-one installation.
