derived from perceived membership in a relevant social group.. As originally formulated by social psychologists Henri Tajfel and John Turner in the 1970s and the 1980s, social identity theory introduced the concept of a social identity as a way in which to explain intergroup behaviour. Social identity theory is described as a ...

Exponentiation is a mathematical operation, written as  $b^n$ , involving two numbers, the base  $b$  and the exponent or power  $n$ , and pronounced as "b raised to the power of n ". When  $n$  is a positive integer, exponentiation corresponds to repeated multiplication of the base: that is,  $b^n$  is the product of multiplying  $n$  bases:  $= \square$ . The exponent is usually shown as a superscript to the right of the base.
