Objective of the Lab: The objective of the lab is to perform experiments which are related to mechanics of machine subject in order to understand the behavior of different mechanical equipments which students study in theory. Governor Apparatus Objective: Exp.# 1: 1. To observe the lift off speed of a Porter Governor. 2.

Second Edition, is ideal for courses in kinematics and dynamics of machines. It covers the basic concepts of gears, gear trains, the mechanics of rigid bodies, and graphical and analytical kinematic analyses of planar mechanisms. In addition, the text describes a procedure for designing disc-cam mechanisms, discusses.
