The announcement of the new Model 37 proved to be premature as Remington suffered delay upon delay in tooling up for the new gun. Even though 44 were made in 1936, production did not begin in earnest until mid 1937. The Remington price list for January 2 1937 announced the new Rangemaster to dealers would handle sales of the new rifle.

Safety. Eliphalet Remington never lost sight of the fact that his rifles were potentially lethal and could kill someone if handled improperly. And after more than 180 years the same holds true for any firearm, including your new Remington. Eliphalet Remington's first flintlock launched a proud tradition of accuracy and responsibility.

I have pillar bedded several Remington 37's. The 37 is built like a brick and the large flat surface on the bottom makes for a super bedding job. I like to use Devcon Steel putty, gives a super strong bedding surface and takes a long time to set-up. That means there is no hurry in getting the excess material wiped off.
