The "Improving Learning in Mathematics" (or Standards Units) resources are, in my opinion, some of the finest ever produced. They are rich, challenging, well thought-out and well resourced. In short, I love them. From the NCETM website: "This multi-media resource has been developed with teachers ...

A Simple Solution is to start from value 1 and check all values one by one if they can sum to values in the given array. This solution is very inefficient as it reduces to subset sum problem which is a well known NP Complete Problem. We can solve this problem in $O(n)$ time using a simple loop. Let the input array be $arr[0..n-1]$. We initialize the result as 1 (smallest possible outcome) and ...

Find the smallest positive integer value that cannot be ...

The security and trust level of deployed 5G networks is a topic of world-wide discussion. Some papers, such as Ovum's The Facts on 5G argue that RAN is a largely insignificant part of a 5G network and cannot affect the confidentiality and integrity of 5G services.. Technically however, this is wrong, as the gNB is the termination point for encryption and integrity protection and, potentially ...
