National Health Insurance And Health

National health insurance, sometimes called statutory health insurance, is a system of health insurance that insures a national population against the costs of health care. It may be administered by the public sector, the private sector, or a combination of both. Funding mechanisms vary with the particular program and country. National or statutory health insurance does not equate to government-run or government-financed health care, but is usually established by national ...

National health insurance - Wikipedia

The National Health Insurance (NHI) is a financing system that will make sure that all citizens of South Africa (and legal long-term residents) are provided with essential healthcare, regardless of their employment status and ability to make a direct monetary contribution to the NHI Fund.

National Health Insurance - NHI

National health insurance is a way of pooling health risks together, thereby minimizing the fees accruing to the people that are the most sick. Think of it this way: sick people are most in need of health insurance, yet insurance companies have the least incentive to provide health insurance to those people at an affordable rate.
