Nursing: The Philosophy and Science of Caring

A philosophy of nursing is a statement, sometimes written, that declares a nurse's beliefs, values, and ethics regarding their care and treatment of patients while they are in the nursing profession. Although the philosophy may seem solely academic and too cerebral to be of any use, it is vital to approaching your profession in an appropriate manner.

What is a Philosophy of Nursing?

January 18, 2019. by Joseph M. Nursing practice comprises of the three major components, namely science, ethics and aesthetic (Bruce, Rietze, & Lim, 2014). Nursing practitioners deliver the components using two major philosophical approaches, notably, philosophy of care and philosophy of therapy. Philosophy is a critical part of nursing profession and discipline because it is closely related to the three components of care.
