Robotics Craig Solution Manual

CMES Robotics. Korea-based CMES Robotics demonstrated random item depalletization using 3D vision to identify box locations on the pallet. The solution can work with any articulated robot to depalletize items onto a conveyor. The company also demonstrated a "void filling" vision application that takes a picture of a filled order box and then determines how much filler product to dispense ...

PackExpo 2021 Recap - The Robot Report

ASI have been working in robotics, AI and autonomy solutions for around about the last decade, and has worked with companies like NASA and Ford. The reason that we went with that firm is because, it doesn't really matter what type of truck we have, they can provide an autonomous solution for it.
