they posit the body in relation to, as well as in contrast with, the autobiographical subject, and how gender becomes part of this narrative construction.

BODY SUBJECT TEXT (POST HUMANISMS AND GENDERS IN FOUR ...

Gender differences in the emotional intensity and content of autobiographical memory (AM) are inconsistent across studies, and may be influenced as much by gender identity as by categorical gender. To explore this question, data were collected from 196 participants (age 18-40), split evenly between men and women.

Emotion, gender, and gender typical identity in ...

Because the subjects in the experiment were asked to remember different events (i.e., men's games for the male subjects, women's games for the female subjects), it is possible that

reassessment of autobiographical writing in England from John Bunyan to Hester Thrale.

The Autobiographical Subject - Felicity A Nussbaum ...

In this study, the effect of age and gender on the positive and negative memories derived from the autobiographical memory test (AMT) was studied in a sample of young adults (N = 50; 21 men) and a sample of older adults (N = 46; 11 men). The results show that the older adults recalled fewer negative memories in response to negative cue words than the younger adults ($p = .002$) and women ...
