Economic Policies: Top 10 Economic Policies Followed in India

The development of India's economy was based on socialist-inspired policies after independence. It included state-ownership of various sectors, regulation and red tape which was known as 'Licence Raj' and protection from the world markets. The Political Economy of India has rapidly changed with the liberalization of the economy in the 1990s.

Political Economy of India

The economic liberalization in India refers to the economic liberalization of the country's economic policies with the goal of making the economy more market and service-oriented and expanding the role of private and foreign investment. Although unsuccessful attempts at liberalization were made in 1966 and the early 1980s, full liberalization was initiated in 1991.

Economic liberalisation in India - Wikipedia

India has a mixed economy. Half of India's workers rely on agriculture, the signature of a traditional economy. One-third of its workers are employed by the services industry, which contributes two-thirds of India's output. The productivity of this segment is made possible by India's shift toward a market economy. Since the 1990s, India has deregulated several industries.
