The Individual Psychology Of Alfred

Alfred Adler's school of individual school of psychology created a chasm in the field of psychology, which had been dominated by Freud's psychoanalysis. While Freud focused on only the internal processes — mainly sexual conflicts — that affect a person's psychology, Adler was adamant that to fully understand a person, a psychologist must also consider other internal factors

...

Alfred Adler's theory is at once a model of personality, a theory of psychopathology, and in many cases the foundation of a method for mind development and personal growth. Adler wrote, "Every individual represents a unity of personality and the individual then fashions that unity. The individual is thus both the picture and the artist.
