Boston University

Managers account for at least 70% of the variance in employee engagement. If you consider how important employee engagement is and how engagement affects every aspect of your business (profits, customer service, loyalty, etc.), this statistic is incredibly scary. Managers are overwhelmed and overworked, but this is something that can't be ignored.

4 shocking statistics that every manager needs to know ...

Shin Takahashi graduated from the Graduate School of Design at Kyushu University in Japan. He has worked as a lecturer and performing data analyst and is currently employed as a technical writer. Takahashi has published several books in the Japanese Manga Guide series, including Statistics-Factor Analysis Edition and Statistics-Regression Analysis Edition (both published by Ohmsha).

The Manga Guide to Statistics | No Starch Press

Source: U.S. Bureau of Labor Statistics, Occupational Employment Statistics The median annual wage for financial managers was \$129,890 in May 2019. The median wage is the wage at which half the workers in an occupation earned more than that amount and half earned less.
