Certain features which in previous centuries were considered essential to the art of sculpture are not present in a great deal of modern sculpture and can no longer form part of its definition. One of the most important of these is representation. Before the 20th century, sculpture was considered a representational art, one that imitated forms in life, most often human figures but also inanimate objects, such as game, utensils, and books.

Even today, although continuously evolving, sculpture is still the leading method of expressing and commemorating both historical figures and events.

## Sculpture: Definition, Types: Statues, Reliefs

Sculpture is the branch of the visual arts that operates in three dimensions. It is one of the plastic arts. Durable sculptural processes originally used carving (the removal of material) and modelling (the addition of material, as clay), in stone, metal, ceramics, wood and other materials but, since Modernism, there has been an almost complete freedom of materials and process.

## Sculpture - Wikipedia

The sculpture of ancient Greece is the main surviving type of fine ancient Greek art as, with the exception of painted ancient Greek pottery, almost no ancient Greek painting survives. Modern scholarship identifies three major stages in monumental sculpture in bronze and stone: the Archaic, Classical and Hellenistic. At all periods there were great numbers of Greek terracotta figurines and small sculptures in metal and other materials. The Greeks decided very early on that the human form was the
