Novice Pathway

Psychological trauma is damage to a person's mind as a result of one or more events that cause overwhelming amounts of stress that exceed the person's ability to cope or integrate the emotions involved, eventually leading to serious, long-term negative consequences. Trauma is not the same as mental distress or suffering, both of which are universal human experiences.

The Trauma Nursing Core Course (TNCC) can be a very daunting class to take as a new nurse. I was pretty much terrified when I was told I had to not only take the class but was only going to get a few weeks to study for it. They handed me this massive textbook and I was told to read the whole thing before class. I was completely overwhelmed.
