Manual or non-motorized treadmills don't have a bulky motor that moves the belt. The user is the one that is propelling and moving the belt. The belt moves as you run or walk. One of the biggest advantages of non-motorized treadmills is that they don't require electricity so you can use them wherever you like, e.g. in your garage or shed.

To Unfold The Treadmill: Apply slight forward pressure\* on the treadmill running deck with one hand. Pull down on the unlocking lever and slowly lower the running deck to the floor.

# Read PDF Treadmill User Guide

The deck will lower unassisted when it reaches about waist high.

## **OWNER'S MANUAL - Sole Treadmills**

Most treadmills use an electric motor to move the tread belt along the surface of the deck which creates a feeling of forward motion. These motorized treadmills require a power source (wall outlet) to operate as the belt will not move unless the motor is powered. Motorized treadmills are the standard treadmills you see in most homes and gyms.

## **Best Manual Treadmills 2020 - Do NOT Buy Before Reading ...**

Flat-belt non-motorized treadmills garner poor reviews overall, both from treadmill experts and users. In choosing one of these models, look for a user weight capacity of at least 325 pounds as that is the best indication of the quality of construction. Check the warranty and avoid any with a warranty of under one year.

## **ProForm Treadmill User Manuals**

What is a manual treadmill? Manual treadmills are designed without motors and are powered by the user. This means that you have to get the treadmill belt started with your own movement. Dual-weighted flywheels offer consistent resistance while walking, jogging or running. A manual treadmill is a more affordable alternative to a motorized treadmill.
