### Wtf Whats The Future And

What's the Future is an insightful and heartfelt plea, daring us to reimagine a better economy and society... a jaunty read with a compelling narrative of how technology interweaves with the real world. If it can cajole even a few tech titans to dwell on the social and political impact of what they do then it will have served a useful purpose." (Financial Times)

### WTF?: What's the Future and Why It's Up to Us: O'Reilly ...

In WTF, he shares the evolution of his intellectual development, applying his approach to a number of challenging issues we will face as citizens, employees, business leaders, and a nation. What is the future when an increasing number of jobs can be performed by intelligent machines instead of people or done by people only in partnership with those machines?

WTF (What's The Future)? Show Notes. The "next economy," or digital revolution, is restructuring every business, job, and sector of society. By 2055, it's estimated that half of today's work activities will be automated. Tim O'Reilly, founder and CEO of O'Reilly Media, says we should be harnessing technology, rather than fearing it ...

### WTF (What's The Future)? | Aspen Ideas

I am reading Tim O' Reilly's "What's the Future and Why It Is Up to Us" as the future of humanity and technology is one of topics I am very passionate about. As Tim says: "the future that we can imagine shouldn't be a dystopian vision of robots that are wiping us out, of climate change that is going to destroy our society.

What's the Future and Why It's Up to Us (Harper Business, October 2017), I share some of the techniques we've used at O'Reilly Media to make sense of and predict past innovation waves such as the commercialization of the internet, open source software, the internet as a platform, big data, open government, and the maker movement.

### Tim O'Reilly: WTF? What's the Future and Why It's Up to Us ...

The great unanswered question is why technology is so often being used to eliminate jobs and to make a small segment of society ever richer rather than being used to do more, to solve the great problems we face today and to make society as a whole prosperous. I make the case that the answer is in the fitness function we have given to our economic algorithms, and the unexamined rules we use to ...
